

## **HOUSE NUMBERS**

**Is your house number clearly visible from the street?  
Seconds Count in an Emergency!**

**Protect your family and your property by having large visible numbers.  
Firefighters, police officers, and paramedics will find you faster when your home is properly marked.**

### **Use Large Visible Numbers!**

**Numbers need to be at least 4 inches in height and facing the street.  
Put the numbers under lighting, and use numbers with a contrasting background, so they will be visible at night.**

**It's the Law.**

**Massachusetts General Laws C. 148, S. 59.**
